

**The URLs used in the Link points for Parent and Child projects are:**

For Parent to open the Child project and a session:

`mds:///new/session?project=Child.ppc&values={"ParentGUID": "<%_GUID%>"}`

For Parent to transfer session GUID and Data:

`mds:///new/session?project=Child.ppc&values={"ParentGUID": "<%_GUID%>", "Data": "<%Data%>"}`

For Parent to send all opened sessions on the Child project to MDS server:

`mds:///send/sessions?project=Child.ppc`

For Child project to return to Parent project and session:

`mds:///open/session?project=Parent.ppc&session=<%ParentGUID%>`

Note: the GUID of the Parent project session is exposed in the GUID Edit point by including in the design `<%_GUID%>`
